THE COMPLETE DISPERSAL OF THE FELLFORT ANGUS HERD

On behalf of Ben & Elaine Ryall. Co.Cork.

Featuring 36 in calf cows & 13 maiden heifers

ONLINE 30TH MAY - 2ND JUNE 8PM

ON THE MARKET SELLING MARTEYE DENIS BARRETT

Welcome to the complete dispersal of the Fellfort Angus Herd...

About the Herd:

'The Fellfort Herd was established in 1956, by the late Jack Ryall with purchases from the Fota Herd Dispersal Sale. Ben took over the running of the herd in 1992 and steadily grew the cow numbers to 80 breeding cows.

The primary breeding focus in our herd is to breed easy calving bulls that will produce easily fleshed cattle which will finish on mainly a grass based system. We have always focused on keeping a more traditional easily fleshed medium sized cow in our herd.

For the last number of years we are 100% AI which enables us to use a variety of proven bulls. In recent years we have sold a number of bulls to AI stations and Pedigree breeders. We have also exported bulls and heifers all over Europe.

We have been reducing our numbers the last few years to a core group of breeding cows with the view to our retirement, and we have decided that now is the time for us to disperse all breeding females.'
