"This is a tremendous herd of cows, with super production of a grass-based system, which will be further maximised on a more extended grazing farm. If put into a more intensive system, they will produce significantly more milk willingly. They have the type to last for years through breeding, and they possess real Dairy Power with perfect balance. They have a beautiful temperament and are so easily handled, making them a pleasure to walk through. These will be ideal for a new entrant or someone restocking". - Denis Barrett
